

## How to Use GPX Files

If you want to use GPS data on your smartphone, please follow these few easy steps:

8. Download any free app for viewing GPX files available on Google Play Store or Apple App Store

- GPX Viewer
- GPS Tracker
- Routes
- GPX Reader
- Tracklia

9. Open [www.zagorjebike.com.hr](http://www.zagorjebike.com.hr) in your preferred smartphone browser. Choose a bike route and click on “DOWNLOAD GPX FILE” to download relevant GPS data

10. When the file is downloaded, select “Open” on your smartphone

11. File will now be displayed in the GPS app you’ve installed

12. Allow the app to access your device data

13. Turn on Location Services (GPS) in your smartphone settings

14. Start biking and follow displayed GPS indicators.
